

GUIDELINES FOR APPLICATION TO DOCTORAL DEGREE PROGRAMS IN GRADUATE SCHOOL OF SCIENCE AND TECHNOLOGY

Pre-arrival Admission for International Applicants from Overseas ※

October Admission, 2024

2024年10月入学

- ※ The application procedures described in this Guideline are for international applicants who reside outside Japan.
- ※ Pre-arrival admission is a program through which international students can directly apply for admission from overseas. Selection is carried out and permission for admission is granted to the candidates without requiring them to come to Japan even once before enrollment.
- ※ Note that all date and time in this Guideline are based on Japan time.

静岡大学

GRADUATE SCHOOL OF SCIENCE AND TECHNOLOGY
SHIZUOKA UNIVERSITY
SHIZUOKA, JAPAN

Shizuoka University's Philosophy and Goals

Our Philosophy: Freedom and Enlightenment & Creation of the Future

Shizuoka University came into being after the integration of the former Shizuoka High School, Shizuoka First Normal School and Shizuoka Second Normal School, Shizuoka Normal School for Youth, and Hamamatsu Technical College (formerly Hamamatsu Technical High School) in 1949, followed by the absorption of Shizuoka Prefectural College of Agriculture in 1951. Prior to their integration, the university's predecessor institutions all had educational policies that placed importance on students' independence, reflecting the liberal social atmosphere that prevailed in Japan under the "Taisho democracy" of the Taisho period (1912–1926). Of these institutions, the Hamamatsu School of Technology in particular espoused a philosophy of "freedom and enlightenment", conducting a form of education that avoided restricting students through exams or rewards and punishments, and instead placed them in an environment that was as free as possible, aiming to give full rein to students' talents by respecting each person's individuality.

This philosophy of freedom and enlightenment is essential not only for education, but also for original research based on unfettered, free thinking and for mutually enlightening collaboration with society; it should therefore be handed down from one era to the next. Shizuoka University's students and staff (faculty and administrators) recognize this, and continue to uphold the philosophy of "freedom and enlightenment" as a mainstay of our education, our research, and our collaboration with society, industry, and our peers overseas. Joining forces, our students and staff will take determined action to tackle local issues, as well as global issues, continually pursuing peace and happiness for humankind. In this way we will dedicate ourselves to the creation of the future—a future filled with hope.

Guided by its philosophy of "freedom and enlightenment, and creation of the future", as defined above, Shizuoka University will continue contributing to the future of humankind and to the development of the local community by cultivating human resources through high-quality education and creative research. Its endeavors will be bolstered by respect and affection for the abundance of natural and cultural assets found in Shizuoka Prefecture, where the university is located.

Admissions Policy of the Graduate School of Science and Technology, Educational Division

Shaping our students

We train high-tech engineers and researchers who gain in-depth knowledge of specialized disciplines and obtain a broad-based education that enables them to meet the needs and expectations of the community and international society.

Educational objectives

The graduate school provides a *T-style of education* in which specialized courses and courses in relevant new emerging areas (the vertical bar of the T) are combined with broad-ranging general courses enabling students to better contribute and meet the needs of society (the cross bar of the T), while nurturing individuals who exhibit creative energy, self solving ability, and communication skills.

Type of students that we seek

The graduate school is looking to admit students

- who are passionately committed to the pursuit of new knowledge and truth in the natural sciences,
- who never give up and are self-motivated and challenged to address tough issues, and
- who demonstrate leadership coupled with a cooperative spirit under a variety of circumstances .

Nature and capabilities required for admission

Qualified candidates for the Education Division of the Graduate School of Science and Technology have completed or are expected to complete a master's degree or a professional degree, and have a scholastic aptitude equal to or higher than a master's degree. In the selection examination for general, working, and foreign students, applicants are given an achievement test and an oral exam regarding their master's thesis or research record, in addition to basic subjects related to the applicant's major in their previously completed graduate curriculum.

Through this selection process, applicants are assessed for their ability to perform doctoral-level study and research . The graduate school looks to admit students (1) who are passionately committed to the pursuit of new knowledge and truth in the natural sciences, (2) who never give up and are self-motivated to address tough issues, and (3) who demonstrate leadership coupled with a cooperative spirit under a variety of circumstances . The oral exams administered in the selection process are designed to evaluate the aforementioned personal qualities and aptitude, in addition to the academic capabilities required for doctoral study.

Student Admission Guide (October Admission, 2024)

Course for Foreign Students

1. Admission Policy

Department of Nanovision Technology

A new research field will be created by uniting the engineers of image science and researchers of nanoscience. The nano field control of individual photon and electron will be introduced for the first time in the world in the image science, which will be called "Nanovision Science". The objective of creating this field will be to rear students so that they will be able to contribute strongly in the development of industries as engineers and researchers. They will be judged on the basis of their ability, academic achievement, suitability, etc.

Department of Optoelectronics and Nanostructure Science

The aim of the department is to develop your professional capabilities to innovate in future technologies and to take part in the initiative activities based on controlling of materials function and interaction between photons and nanostructure materials in the field of expanding industry such as communication, measurements and chemical industries thorough a knowledge of fundamental sciences and applying them to their practical purposes. The applicants are required to provide their ability, scholarship and aptitude for achieving the admission policy.

Department of Information Science and Technology

Department of Information Science and Technology aims based on informatics, engineering and basic sciences to educate specialized researchers who develop novel basic information technologies and advanced engineers of information systems with outstanding abilities of information techniques. Applicants are examined from the view point of academic abilities for the policy.

Department of Environment and Energy Systems

The application of basic principles and equations dealing with water, air, and solid and hazardous wastes; material and energy balances; and chemical and biogeochemical cycles for solving environmental issues. Topics include synthesis courses of water treatment, environmental change and biogeochemical cycles, analysis of ecosystems, geomicrobiology, CO₂ sequestration, and environmental legislation. Our goal is new innovative science and technology, through lectures and discussions linking a broad range of scientific and engineering topics.

Department of Bioscience

The department provides education and training to the students by conducting frontier researches directed to basic bioscience and biotechnology, on the basis of cell biology, developmental biology, integrative biology, microbiology, genomics, biotechnology, bioorganic chemistry, food science, and bioinformatics, being expected to take the initiative in the academic and scientific research leaders with entrepreneurship in the new bioindustrial areas.

2. Environmental Leaders Program (special doctoral program) (see 20. for more information)

The special doctoral program "Shizuoka University Corporation Environmental Leaders Program (ELSU) OCT 2024" offers highly qualified foreign students the opportunity to pursue doctoral study and research regarding environmental issues. It aims to develop 'strategy-oriented leaders' on diverse topics ranging from natural conservation to sustainable development. Students selected for ELSU OCT 2024 will receive a waiver for the entrance fee and tuition for up to three years (note: disqualified students are no longer eligible to receive a tuition waiver).

Eligibility: Foreign students planning to enroll in October 2024 (any department).

Number of students selected: 2 (for October 2024 admission).

Duties: Specified course requirements and fieldwork.

The selection results for ELSU OCT 2024 will be posted by September 2024.

3. Qualifications for Application (Requirements)

- (1) Persons who have completed a Master's Degree or a Professional Degree.
- (2) Persons who are expected to complete a Master's Degree or a Professional Degree by September 30, 2024.
- (3) Persons who have completed a Master's Degree or a Professional Degree outside of Japan or those who are expected to complete one by September 30, 2024.
- (4) Persons who have studied in a correspondence course of a foreign school in Japan and have completed a Master's Degree or a Degree equal to a Professional Degree or those who are expected to complete one by September 30, 2024.
- (5) Persons who have completed the course of a Master's Degree or a Degree equal to a Professional Degree in Japan designed by the Ministry of Education, Culture, Sports, Science and Technology, Japan, such as a postgraduate course in a foreign country or those who are expected to complete one by September 30, 2024.
The postgraduate course above must be from an educational institution recognized by the school education system in the country where it is located.
- (6) Persons who have qualifications approved by the Ministry of Education, Culture, Sports, Science and Technology of Japan (see Remark 2).
- (7) Persons who are recognized by our graduate school as having scholastic aptitude equal to or higher than that of a Master's holder through an individual evaluation of admission qualification and who are over 24 years old by September 30, 2024. (Those who were born before October 1, 2000)
- (8) Person who completes course of the United Nations university established based on the United Nations general assembly resolution on December 11, 1972 that provides to Article 1 clause 2 of special measures law (No.72 of law in 1976) according to execution of agreement of association union and Japanese country concerning the United Nations university headquarters, and gives degree that corresponds to degree of master.
- (9) Persons who have passed the Qualifying Examination, or persons who have completed the curriculum in a university abroad, have passed an examination equivalent to the Qualifying Examination, and are considered as having the academic aptitude equal to or higher than a Master's Degree.

(Remark 1) Applicants who intend to apply in accordance with Qualification (6) or (7) are required to submit to an Individual Evaluation of Application Qualification before submitting Application Documents for Admission.

See "14. Individual Evaluation of Application Qualification" on page 8.

(Remark 2) (the Ministry of Education Notification No.118)

- ① Persons who have graduated from a university in Japan and have experience working in universities or research institutions for more than two years and those who are recognized by our graduate school as having scholastic aptitude equal to or higher than that of a Master's holder through an individual inspection of application qualification.
- ② Persons who have experience working in universities or research institutions for more than two years after completing 16 years of education in the education system of a foreign country or after completing the equivalent correspondence program in Japan and who are recognized by our graduate school as having scholastic aptitude equal to or higher than that of a Master's holder through an individual inspection of application qualification.

If you have any questions, please contact the Educational Affairs Unit, Doctoral Course (see 17. Inquiries).

4. Admission Capacity

| Department | Admission Capacity |
|---|--------------------|
| Nanovision Technology | A few people |
| Optoelectronics and Nanostructure Science | // |
| Information Science and Technology | // |
| Environment and Energy Systems | // |
| Bioscience | // |
| Total | // |

Refer to “The list of Supervising Professors and Research-and-Education Subject in the Graduate School of Science and Technology, Educational Division” on the end of this guideline. In order to understand our graduate school, we strongly recommend to visit our web page:

<https://gsst.shizuoka.ac.jp/?lang=en>

5. Selection Procedure

Selection will be carried out on the basis of a presentation of the applicant’s Research Record/Master’s thesis, oral exam and application documents. Applicants are required to give a presentation of his/her Master’s thesis or research record and to take an oral exam about the presentation and subjects which have been studied. The duration of the presentation should be 30 minutes. Applicants who have research experience after receiving a Master’s Degree may present research conducted after the Master’s Degree. A liquid crystal projector is available. However, applicants should prepare a personal computer including any software and others.

• Selection for Foreign Students:

Applicants are screened based on oral presentation and application document comprehensively on a 0-100 scale.

6. Date of Examination

| Date | Time | Subjects |
|--|---|------------------|
| Any one day between June 26 (Wednesday), 27 (Thursday) and 28 (Friday) | Details will be provided to each applicant. | Oral Examination |

7. Application Documents

- (1) Application Form. Complete the form provided.
- (2) Examination Card and Photo ID Card. Complete the form provided and paste a photo taken within 3 months of the date of submission.
- (3) Research Plan. Use the form provided.
- (4) Official Certificate of Achievement for undergraduate studies issued by the university.
- (5) Official Certificate of Achievement for graduate studies issued by the graduate school.
- (6) Official Certificate of Graduation from graduate school issued by the graduate school or an official letter of certification from the graduate school at which the applicant is currently enrolled, stating the expected graduation date. Applicants intending to apply in accordance with Qualification (6) or (7) must submit Academic Records certified by the university from which the applicant graduated most recently. (See 14. Individual Evaluation of Application Qualification on page 7.)

- (7) Applicants intending to apply in accordance with Qualification (1), (3), (4), (5) or (8) and who have a Master's Degree or Professional Degree must submit a copy of their Master's thesis or the summary in English, on 2-pages of A4-size paper. Applicants who have a record of research should append a Summary of Research and Technological Achievement in English. Fill in the form provided, maximum 1,200 words. Applicants intending to apply in accordance with Qualification (2) or (4), and who are expected to complete Master's Degree or Professional Degree must submit a report on the progress of their Master's thesis in English, on 2 pages of A4-size paper. Copies of any academic research publications, academic conference presentations or patents, etc., if any, should also be submitted additionally.
- (8) Permission for Examination written by the chief (or other responsible person) of the applicant's place of employment if he/she works for a public office or company.
- (9) Application Fee: 30,000 yen.
Transfer "30,000 yen" to a bank account of Shizuoka University. In order to have the account number applicants must contact the Educational Affairs Unit, Doctoral Course (see 17. Inquiries). Please keep a "transfer certificate".
Paid application fees cannot be refunded except under the some cases, regardless of reason. (see **16. Entrance Exam Fee Refund Policy**).
An application fee is not required for applicants going through Qualification (6) or (7). The result of the evaluation will be sent to the applicant by May 31 (Friday), 2024. Successful applicants in the Individual Evaluation are required to pay the fee for the selection. Instructions for paying the fee will be included with the result notification.
- (10) Return Label. Write an address to receive the result notification on the form provided.
- (11) Working students are required to submit a Record of Research and Technological Achievements.
A letter of recommendation written by the chief (or other responsible person) of the applicant's place of employment, if any.
- (12) A copy of passport where applicants' name, photo, birth date, sex, and signature are shown.
- (13) Presentation file for Internet Interview
Presentation in the internet interview should cover the following A and B.
A. Research or study in the Master's course and/or most recent research
B. Future research plan
A corresponding presentation file should be submitted in advance by June 21, 2024, in pdf format by E-mail addressed to:
souzou-jimu-hgakumu@lists.gsest.shizuoka.ac.jp

8. Application Period

- (1) Applicants who intend to apply in accordance with Qualification (1) or (2) and those who have met Qualification (6) or (7) by Individual Qualification:
From June 3(Monday) to June 7 (Friday), 2024.
- (2) Applicants who intend to apply in accordance with Qualification (3), (4), (5), (8), (9):
From May 20 (Monday) to May 24 (Friday), 2024.

In order qualifications to be checked, early submission is required. If you have any questions, please contact to the Educational Affairs Unit, Doctoral Course (see 17. Inquiries).

9. Address for Submission of Application Documents

Educational Affairs Unit, Doctoral Course ,
Graduate School of Science and Technology, Shizuoka University,
3-5-1 Johoku, Chuo-ku, Hamamatsu 432-8561, Japan

E-MAIL: souzou-jimu-hgakumu@lists.gsest.shizuoka.ac.jp

10. Submission Procedure

Applicants must collect the documents identified above, and send them by REGISTERED MAIL (such as EMS) to the Educational Affairs Unit, Doctoral Course in the above.

Please write clearly in red "Application Documents for the Graduate School of Science and Technology, Education Division" on the front of the envelope.

11. Announcement of Results

At 10:00 on July 10 (Wednesday), 2024 the successful applicants' exam numbers will be posted on the Graduate School of Science and Technology, Shizuoka University Website (Admission).

https://gsst.shizuoka.ac.jp/?page_id=5204&lang=en

12. Admission Procedures

Successful applicants should complete the admission procedure by the following date. Instruction for the admission procedure will be sent.

(1) Registration Period and Payment:

Registration Period: Late in September, 2024. The detail will be informed.

(2) Method of Registration: Mail to the Educational Affairs Unit, Doctoral Course (see 9. **Address for Submission of Application Documents**).

Notice of Payment:

Admission fee must be paid when completing the admission procedures.

(3) Admission Fee and Tuition

Admission Fee: 282,000 yen (actual for 2024).

Tuition: 535,800 yen for the year (267,900 yen for a semester) (actual for 2024).

Note:

a. If tuition for the previous term has not been paid by admission day, it must be paid between October 1 and October 31, 2024.

b. If you need to withdraw from school after enrolling any time up to September 30, 2024, the tuition shall be refunded in full upon request by the person who paid the tuition. Note that the admission fee shall not be refunded under any circumstance.

c. Tuition and other fees assessed by Shizuoka University are standardized and determined by the Ministry of Education, Culture, Sports, Science and Technology (MEXT).

d. If the tuition fee is increased at the time of admission or while school is in session, the new fee shall apply from the date that it goes into effect.

(4) Exemption from Payment of Admission and Tuition Fees

In case of lower income than a certain level at the admission it may be possible that the exemption rule from payment of admission and tuition fees to be applied to the student. The details of this system will be informed prior to the admission process.

13. Important Remarks

(1) Submission of documents must be made by registered mail. Late applications will not be accepted. Documents must arrive before the application deadline.

(2) Incomplete applications will not be accepted. Submitted documents will not be returned. Be careful to avoid any omissions or errors in writing. Any change of description after the submission of documents will not be accepted, however, change of address should be informed to the Educational Affairs Unit, Doctoral Course.

(3) Applicants who intended to apply in accordance with Qualification (3), (4), (5), (8) and (9) have to submit the required document prior to the application period as mentioned 8. (2) for qualifying and checking the application document.

14. Individual Evaluation of Application Qualification

Those who intend to apply in accordance with Qualification (6) or (7) are required to submit to an individual evaluation of their scientific ability in relation to Qualifications for Application. The evaluation is done to judge the scholastic aptitude of application based on documents applicants.

(1) Application Documents

a. Application Form for Individual Evaluation. Complete the form provided.

b. Official Certificate of Graduation from undergraduate school issued by the most recently attended the university.

c. Official Certificate of Achievement from undergraduate school issued by the most recently attended the university.

d. Summary of Research and Technological Achievements. Fill in the form provided.

e. Record of Research and Technological Achievements. Fill in the provided format.

f. Copies of any academic research publications, academic presentations or patents, etc. if any, should also be submitted.

- (2) Application Period
From May 20(Monday) to May 24 (Friday), 2024.
Applications must be submitted by the deadline by registered mail to the Educational Affairs Unit, Doctoral Course (see 9. Address for Submission) by the applicants.
- (3) Results Notification
The results will be sent by mail to all applicants by May 31(Friday), 2024.
- (4) Application Period and Application Documents
Successful applicants in Individual Evaluation of Application Qualification must complete the submission procedures described from 7. Application Documents to 10. Submission Procedure. The following materials are required and submission must be made by mail. Instructions for submission will be included with the result notification. Note that the application period is from June 3(Monday) to June 7 (Friday), 2024.
- Application Form for Entrance Examination. Complete the form provided.
 - Examination Card and Photo ID Card. Complete the form provided and attach a photo taken within 3 months of the date of submission.
 - Research Plan. Fill in the form provided.
 - Permission for Examination written by the chief (or other responsible person) of the applicant's employment if he/she works for a public office or company.
 - Letter of recommendation written by the chief (or other responsible person) of the applicant's employment, if any.
 - Application Fee : 30,000 yen
 - Return Label. Write an address to receive the result notification on the form provided.
 - Copy of passport where applicants' name, photo, birth date, sex, and signature are shown.

15. Special Exam Procedures for Applicants with Disabilities

Applicants with disabilities who require special considerations in taking exams and attending school must meet with the school for an interview before the student applies, so please submit the following form. We will contact you as soon as a determination is made based on the interview. We recommend that all new student applicants with disabilities actually visit the campus before applying to examine the school facilities and campus in person.

16. Entrance Exam Fee Refund Policy

Paid application fees cannot be refunded except under the following cases regardless of reason.

- (1) Refunds can be issued under the following circumstances:
- The applicant will not apply to this school although the test fees have been paid.
 - The test fee was paid twice by mistake
 - The application could not be processed due to incomplete documents and/or due to not satisfying necessary conditions.
- (2) Amount to be refunded:
The amount overpaid or the total amount will be refunded to the applicant as the applicant requests
- (3) Applying for a Refund
Students must seek a refund in writing by mail.

In the case of ① or ② in section (1) above, please clearly fill out 1-8 of the following refund request form. All information must be printed clearly. You MUST attach EITHER the “Confirmation of Postal Transfer” (郵便振替払込受付証明書 yuubin furikae haraikomi uketsuke shoumeisho) / (“Confirmation of Entrance Exam Fee Payment” 入学検定料受付証明書 nyuugaku kenteiryō uketsuke shoumeisho)

OR the “Receipt of Payment” (払込金受領証 haraikomikin jyuryōshō).

Refund applications MUST BE RECEIVED by the Shizuoka University Graduate School of Science and Technology no later than June 14 (Friday) 2024.

In the case of ③, a copy of the refund request form will be included with your returned

documents. Please fill it out and send it by mail.

All bank handling fees are the responsibility of the applicant.

20. Environmental Leaders Program (ELSU) OCT 2024

(1) PROGRAM DESCRIPTION

The “Shizuoka University Corporation Environmental Leaders Program (ELSU) OCT 2024” is a special doctoral program that offers highly qualified foreign students the opportunity to pursue doctoral study and research regarding environmental issues. It aims to develop ‘strategy-oriented leaders’ with expertise in a diverse range of topics - from natural conservation to sustainable development. Students selected for ELSU OCT 2024 will receive an entrance fee waiver in addition to a tuition waiver for up to three years. (Note: disqualified students will not be eligible to receive the tuition waiver.)

Eligibility: Foreign students planning to enroll in OCT 2024.

Number of students selected: 2 (OCT 2024 admission)

(2) APPLICATION PROCEDURES

Those who are interested in applying for ELSU OCT 2024 should submit the following documents by the deadline, pending approval from the prospective advisor.

Additional application materials to be submitted:

- (1) Description of research title and plan;
- (2) Records and summaries of field surveys/activities;
- (3) Recommendation from previous advisor or another person who is familiar with the applicant’s work (one recommendation, no formal template).

All documents must be submitted during the application period.

Program requirements:

- (1) 6 credits from the selected courses.
- (2) 45 hours of fieldwork
- (3) One presentation (in English) at an international conference

| | Courses | Credits | Notes |
|----------------------|--|---------|---|
| Specialized Subjects | Environmental Process Engineering | 2 | Courses must be taken as follows: (1) 3 credits from left table as a part of Ph.D. requirements. (2) Additional 3 credits from the left table apart from Ph.D. requirements. (3) Environmental Ethics or Bioethics are required. |
